Upgradation- Success Factors

- Clarity of Goal
- Right People in Right Mix
- Teamwork
- Good Project Management
- Best Practice Process

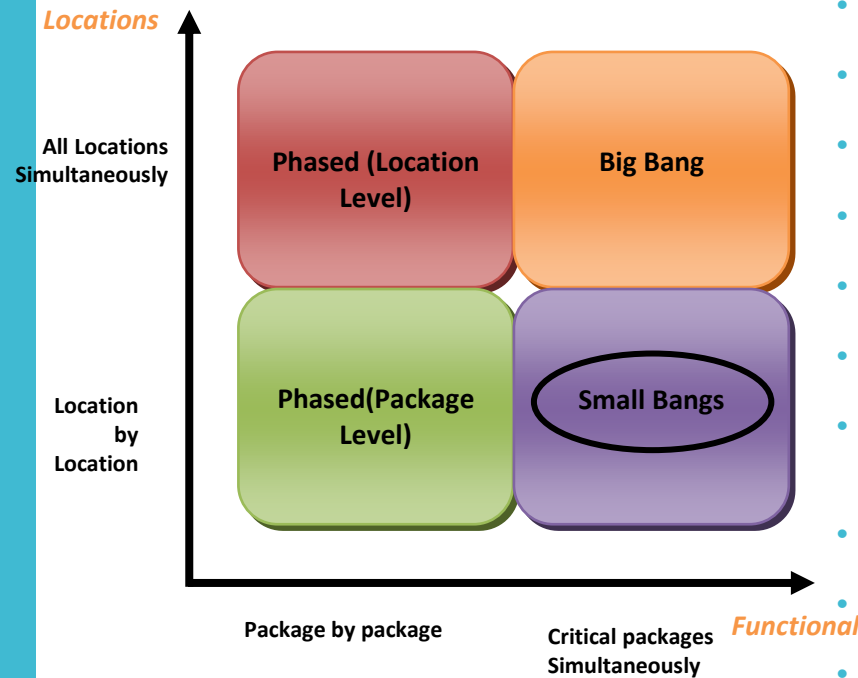

Systems, Process, People (Employees, Vendor, Leadership teams) are to be aligned to single goal towards success within constraints imposed by the environment

Our Project Methodology

Onsite/offsite model

- Onsite Consulting, Offsite Support
- Video Conferencing – Weekly Meetings
- Effective tracking & monitoring of resolving issues using defect tracking system
- Consultants can travel on-demand
- Consultants will work in your time zone (if required)
- Already successfully executed model
- nB is accountable for success of the model

Our Upgradation/ Migration Methodology

- **Re-Engineering:** Adopt to ERP LN Process
- **Core packages** to go live first
- Add-ons and **Enhancements part of AMS**
- 3rd Party **Integrations** - **restricted** in phase 1
- **Limit customization** to reports
- **Training** activity to be given importance
- **Identify standard process** across all sites
- Consultants picked on **business process knowledge** than domain knowledge
- **Core and dynamic teams** reduce lead time
- **Onsite- offsite model** to control costs
- **Project Management-** Monitor track and control
- **Top management involvement** and support
